

## Darcy Miro Metals Shop

By Rachel LeWinter Tue Sep 17 2002

This is not your cookie-cutter jewelry boutique: Darcy Miro handcrafts one-of-a-kind functional sculptures (like drawer handles, light fixtures and three-dimensional wallpaper) and wearable art made from oxidized copper, gold and sterling silver. She uses found objects to shape sheets of wax, which get cast into metal for her to drill, saw and assemble.

60 Bedford St at Morton St (212-366-9896)
